

PRODUCT SPECIFICATION

VAE Emulsion

- Chemical Name** : Vinyl Acetate-Ethylene Copolymer Emulsion
- HS Code** : 3905210000 **CAS number** : 24937-78-8
- UN Code** : Not Applicable **DG Class/PKG GP** : Not Applicable
- Applications** : It is used as general adhesive for packing, bookbinding, and bonding for plastic films, coated papers. Also used as a suitable base emulsion for the formulation of adhesives for difficult substrates. It can be used as an excellent base emulsion for floor, wall or ceiling adhesives.
- Packaging** : 180kg per drum, 14.4MT per 20-ft FCL container with pallet

Characteristics	Unit	Guaranteed Values
Solids Content	%	54.5 Min
Viscosity (mPa.s, 25 °C)	mPa.s	50 – 4500
Ph Value	-	4.0 – 6.5
VAC	%	0.5 Max
